

It's Time to Line Up

[Verse 1]

So when it's time to go, I think we now should know
How to get in a line
Head, nose, and toes forward, all our voices quiet
And our arms right by our side

[Chorus]

It's time to line up, oh, it's time to line up
We got a lot of places to be
It's time to line up, oh, it's time to line up
Won't you come with me?

[Verse 1: Repeat]

When it's time to go, I think we now should know
How to get in a line
Head, nose, and toes forward, all our voices quiet
And our arms right by our side

[Chorus]

It's time to line up, oh, it's time to line up
We got a lot of places to be
It's time to line up, oh, it's time to line up
Won't you come with me?
